

Wouldn't
it be
GREAT

. . . if you could make ten dollars just by visiting our booth at Twins Days and completing our survey on women's health issues?

(You can!)

ALL adult twin sisters are eligible to complete our survey. Please visit us in the research tent this summer!

Additional Opportunities!

If you and your twin sister want to join our list for additional Women's Health studies - some of them including a **free trip to our Chicago center**, and others performed during **Twins Days weekend in Ohio** - please contact us at any time. Participants are always paid for their time and effort.
